

NoGo Review - Me

This page basically is the NoGo Activity View (User edition, with purple header) but extended with a NoGo Review Section. In this description we only focus on the Review Section.

The Violation section has 3 appearances

1. Type 1: Information on violation.
2. Type 2: URL Review Request (disclose request). NoGo Alert status: requested
3. Type 3: URL Review Result

 <p>The screenshot shows a mobile application interface for 'ADULT'. At the top, there is a purple header with a back arrow and the word 'ADULT'. Below it is a grey bar with 'GISTEREN' and navigation arrows. The main content area includes a 'Score' section with a sad face icon and the text '18:30 - 22 minuten'. Below that is a 'Spreading' section with a large '22' and 'minuten totaal', accompanied by a bar chart showing two bars at approximately 18:30 and 20:00. A timeline at the bottom shows icons for moon, sun, and moon, with time markers at 04:00, 08:00, 16:00, and 20:00. The 'Inhoud' section lists a URL: http://www.telegraaf.nl/prive/24789901/_Heidi_Klum_showt_bilpartij_.html with a timestamp of 18:30. At the bottom, there are four icons: a person, two people, a target, and a gear.</p>	<p>Type 1:</p> <p>In addition to the NoGo Activity View this screen shows a list view with the following information sorted by time</p> <ul style="list-style-type: none"> • url • time (20:00) 	<p>Web service that loads the list with URLs</p>

Type 2:

When a friend asks for a URL Review (NoGo Status changes from "announced" to "requested") the Review Section for the user (me) will be extended with

- Label with "Reviewverzoek van " & Friend - Nickname
- 2 buttons to Reject "Weiger" or Accept "Accepteer".

When the user pushes the Accept or Reject button, call the Webservice to process the user action and go back to the notification screen.

Since the NoGo Alert Status has been updated the notification should show the Green (Accepted) or Red (Rejected) Icon. Update the notification and show the icon for Accepted (Green) or Rejected (Red). (See row 5 in the Notification overview)

Webservice to process the user action.

On Reject --> update NoGo Alert status to "rejected"

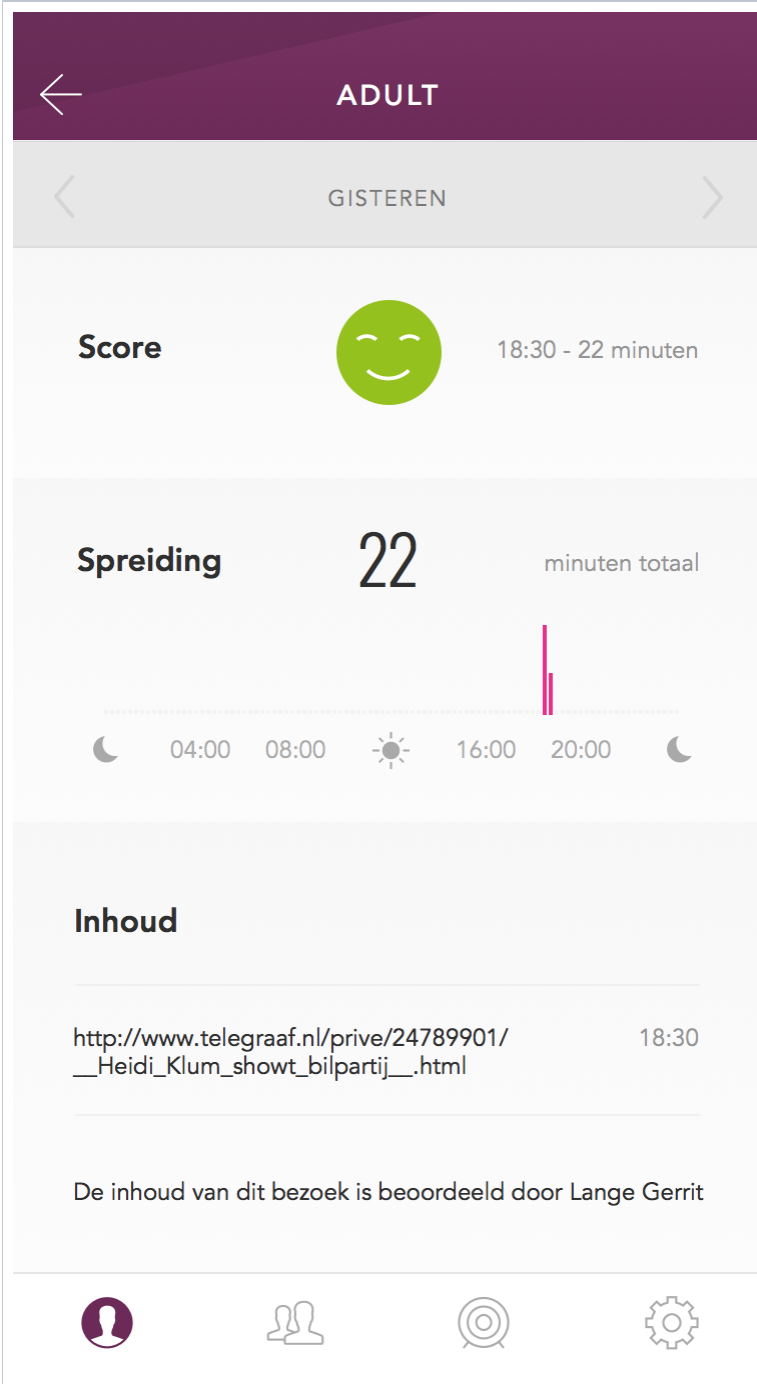

On Accept --> update NoGo Alert status to "accepted"

Create a ReviewPermission ResponseMessage
